DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 through 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Chiaves (U.S. Patent No. 6,129,484).

Chiaves '484, as best seen in Figure 1, shows a prefabricated structural member for the manufacturing of a segment of an open-air work, comprising an upright portion (5a) for resting the structural member (5b) on a foundation portion (3), and at least a cover portion (7) connected to the upright portion,

characterized in that said cover portion has a cavity (as best seen in Figure 4) intended to receive a portion of a continuous beam made by means of a casting (27).

With regard to claims 1 through 5, the method steps recited therein are inherent to the method of making the device disclosed by Chiaves '484.
